

THE BARNES FIRM LAUNCHES *SIDEWALK SNAP: SEE IT. SNAP IT. SEND IT.*

- **Web-based application aimed to help get city sidewalks fixed**
- **Community involvement is catalyst for driving change**

NEW YORK, NY (JULY 2021) - Sidewalks are a vital part of our neighborhoods and people of all ages rely on safe, passable walkways for transportation and recreation.

We've all seen sidewalks with dangerous cracks, crumbling concrete, and uneven cement - potentially causing a tripping hazard. Now, people living and working in these neighborhoods will have the ability to do something about it. Introducing SidewalkSnap, a web-based application that helps communities locate and identify sidewalks in need of repair.

SidewalkSnap was developed by The Barnes Firm Injury Attorneys to empower people to make a difference in their communities. In three simple steps, SidewalkSnap gives people the opportunity to help make their neighborhood a safer and more desirable place for everyone to live, work and play.

SEE IT.

SEE a dangerous sidewalk that needs to be fixed? Unsafe pathways can be spotted throughout many neighborhoods, and if the responsible party isn't notified, the sidewalk may not get fixed. SidewalkSnap aims to change that.

SNAP IT.

SNAP a picture of the unsafe sidewalk. When location services are enabled on your smart phone, SidewalkSnap will automatically record the location. You may also choose to manually enter the unsafe sidewalk location in the next step.

SEND IT.

Upload the image of the unsafe sidewalk to SidewalkSnap.com. That's it! The Barnes Firm will take care of the rest! Once the image is uploaded, a notification will be sent to the responsible party that there's a potential problem.

The Barnes Firm Injury Attorneys are dedicated to help keep our communities safe from unnecessary injuries that happen as a result of unsafe and dangerous walking surfaces. Report hazardous and dangerous sidewalks at SidewalkSnap.com. SEE IT. SNAP IT. SEND IT. Become a Sidewalk Snapper and learn how to win prizes at SidewalkSnap.com. More details are coming soon!
